

Regan Davis

Regan Davis brings over 20 years of industry experience spanning financial markets, corporate supply chain operations, and analytics leadership at companies including Applied Materials, Dell Technologies, and National Financial Partners. As an entrepreneur, he founded a custom screen print business and was the owner-operator of a local youth STEM education center. Certified as a Six Sigma Green Belt and Tableau Data Analyst, Regan leverages his real-world business background to bridge complex quantitative models with practical, workforce-ready applications in the classroom.
